February 3, 2026

This notice is to inform you that the **SLS-7200** model of the SeaLite Sphere has reached end-of-life and has been discontinued.

This change is due to the unavailability of a key component required for production. No alternative model is being produced by the manufacturer. As a result, DeepSea will no longer be accepting purchases for the SLS-7200. Unfortunately, we are not able to accommodate last-time purchases.

We will continue to provide servicing and support for existing SLS-7200 units currently in use.

Product Alternatives

At this time, there is no direct replacement available for immediate purchase. Customers seeking an equivalent solution are encouraged to reach out to DeepSea Sales to discuss current and upcoming options within our portfolio based on their specific application needs.

Please do not hesitate to contact us if you have any questions regarding this change. We apologize for any inconvenience this may cause and appreciate your understanding.

Thank you for your continued business and partnership with DeepSea.

Best Regards,

DeepSea Sales Team
